

## **Programming assignment #3**

**CprE 430/ 530 Due Sunday December 9**

Do programming problem number 2 from chapter 9 in the book.  
Do programming problem number 2 from chapter 10 in the book

NOTE: Both problems are to be included in the same program and turned in as one.

### **NOTES:**

Use the Kali VM you were provided.  
You do not need to decode the application protocol, just print out the ASCII text

Turn in a printout of a sample trace and **turn in your modified source code**
